

Repaircraft PLC

PEACEKEEPING, HUMANITARIAN AND DEVELOPMENT SUPPORT SERVICES

COMPANY BACKGROUND

Repaircraft PLC was established in 1949 and holds ISO 9001 Quality Assurance Approval.

The company now specialises in the procurement and logistic supply of goods and equipment for Peacekeeping, Humanitarian and Development organisations.

This service provides Development Agencies and NGO's with a highly cost effective service to outsource their supply chain requirements to a specialist Support Services organisation.

PEACEKEEPING SUPPORT

Repaircraft PLC has long experience in the supply of material required by peacekeeping forces.

Support has been provided to UK/UN/SFOR/KFOR etc forces involved in numerous peacekeeping duties.

Additionally post conflict mine clearance and demilitarisation personnel, equipment and training can be provided.

HUMANITARIAN AID

Repaircraft PLC is able to respond to the most urgent requirements.

Relief supplies, tentage, water purification etc are sourced and delivered to the point of need with the minimum delay.

DEVELOPMENT ASSISTANCE

In situations where continuing assistance is required in developing countries of the world Repaircraft PLC ensures that material most suitable to the customers needs is selected.

Ongoing support and training can also be provided to ensure continuing development.

Customers include Public Sector Utilities, Power Generation, Mining, Oil Exploration and Private Industry.

CUSTOMER LIAISON

Repaircraft PLC provide 24/7/365 support for all requirements.

Additionally Repaircraft PLC has a number of mission support managers available to visit UN/DFID/EU/NGO missions to discuss and plan requirements as necessary.

LOGISTICS ACTIVITIES

Repaircraft PLC has an international network of procurement offices combined with a very comprehensive and sophisticated IT system that manages all aspects of the supply chain.

Technical definition, quality assurance, vendor selection, tendering, purchase orders, inspection, packing, shipping, payment terms and invoicing etc.

DELIVERY

Packing, shipping and customs clearance.

Repaircraft PLC can also provide specialist expertise covering monitoring during trans-shipment, condition and damage surveys and pilferage reduction.

FIELD SUPPORT

Through life product support and training.

For equipment support and rehabilitation, Repaircraft PLC provide spare parts identification and sourcing, repair schemes and field service technicians.

For long term sustainable maintenance, Repaircraft PLC can provide user training and simple maintenance schedules tailored to the maintainers linguistic, technical and logistic capabilities.

REPORTING AND CONSULTANCY

Audited financial accounts on a “project by project” basis can be provided with full financial accountability and transparency.

Additionally, consultancy services can be provided to cover third party independent audits, value for money studies and risk assessment.

Social and ethical audits of suppliers can also be undertaken.

QUALITY ASSURANCE

Repaircraft PLC holds ISO 9001 Quality Assurance Approval for Technical Support, Logistics Services and Project Management.
